Question 1

Question Type: MultipleChoice

When a permitted user creates a new query, where is this definition saved?

Options:

- A- on the Tivoli Enterprise Portal Server
- B- on the Tivoli Enterprise Monitoring Server
- C- on the local machine of the user but export is possible towards a central location
- D- on the same location as the product defined queries if selected before starting the query creation

Answer:

A

Question 2

Question Type: MultipleChoice

What happens when a workspace with query-based views is set on demand?

Options:

- A- All new events received are acknowledged.
- B- The situation event console is not refreshed.
- C- A link with a child workspace is automatically created.
- D- Retrieved data remains static until it is manually refreshed.

Answer:

D

Question 3

Question Type: MultipleChoice

What are two ways to select the top 20 rows for a given attribute? (Choose two.)

Options:

- A-** Use the Advanced button in the Query Editor to select the attribute to sort by, and then select the first 20 in the First/Last Functions.
- B-** In the Properties Overview window click on Set Advanced Filtering Options, click Enable First/Last Filter, select the attribute to sort by, click Descending, and then select the first 20 in the First/Last Option.
- C-** In the Properties Overview window click on the Query tab, click on Number of Rows to Return, and enter 20. In the Workspace View click on the attribute column to sort by the attribute. Save the workspace.
- D-** Use the Advanced button in the Query Editor to select the attribute to sort by and click Descending. In the Properties Overview window click on the Query tab, click on Number of Rows to Return, and enter 20.
- E-** In the Properties Overview window click on the Filter tab. Click the box under the attribute to select it. Click in a cell under the attribute and select the Sort By function and Descending. In the Properties Overview window click on the Query tab, click on Number of Rows to Return, and enter 20.

Answer:

A, B

Question 4

Question Type: MultipleChoice

What is true about a newly created user defined query in the IBM Tivoli Monitoring solution?
