B) Pre-existing backup tapes

C) Tape backup compression

D) Backup tape storage location

Answer:

D

Question 4

Question Type: **MultipleChoice**

Assume that a computer was powered off when an information security professional arrived at a crime scene. Which of the following actions should be performed after the crime scene is isolated?

A) Turn the computer on and collect volatile data.

B) Turn the computer on and collect network information.

C) Leave the computer off and prepare the computer for transportation to the laboratory

D) Remove the hard drive, prepare it for transportation, and leave the hardware ta the scene.

Answer:

C

Question 5

Question Type: MultipleChoice

An organization is considering outsourcing applications and data to a Cloud Service Provider (CSP). Which of the following is the MOST important concern regarding privacy?

Options:

A) The CSP determines data criticality.

B) The CSP provides end-to-end encryption services.

C) The CSP's privacy policy may be developer by the organization.

D) The CSP may not be subject to the organization's country legation.

Answer:

D

Question 6

Which of the following practices provides the development team with a definition of security and identification of threats in designing software?

Options:

A) Penetration testing

B) Stakeholder review

C) Threat modeling

D) Requirements review

Question 7

Question Type: **MultipleChoice**

Which of the following is a peor entity authentication method for Point-to-Point Protocol (PPP)?

Options:

A) Challenge Handshake Authentication Protocol (CHAP)

B) Message Authentication Code (MAC)

C) Transport Layer Security (TLS) handshake protocol

D) Challenge-response authentication mechanism

Answer:

A

Question 8

Which of the following is the BEST reason to apply patches manually instead of automated patch management?

Options:

A) The cost required to install patches will be reduced.

B) The time during which systems will remain vulnerable to an exploit will be decreased.

C) The target systems reside within isolated networks.

D) The ability to cover large geographic areas is increased.

Answer:

C

Question 9

•Directive controls are a form of change management policy and procedures. Which of the following subsections are recommended as part of the change management process?

Options:

A) Build and test

B) Implement security controls

C) Categorize Information System (IS)
