Question 1

For a mandatory input field 'ZIP code" the following rules are given:

1 - The valid ZIP code format is 5 numeric digits

2 - The code has to exist in the pest office's official ZIP code list

Using equivalence classes partitioning, how many test cases are required to test this field?

Options:

A) 6

B) 4

C) 8

D) 3

Answer:

A

Question 2

Can "cost" be regarded as Exit criteria'?

Options:

A) No The financial value of product quality cannot be estimated so it is incorrect to use cost as an exit criteria

B) Yes. Spending too much money on testing will result in an unprofitable product, and having cost as an exit criteria helps avoid this

C) Yes Going by cost as an exit criteria constrains the testing project which will help achieve the desired quality level defined for the project

D) No The cost of testing cannot be measured effectively, so it is incorrect to use cost as an exit criteria

Answer:

C

Question 3

Which of the following statements correctly describe Black-Box Testing"

Options:

A) Test on an individual software component in isolation from other components, to avoid external influence

B) Tests that investigate the input vs. trfe output behavior of a software system.

C) Test derived from the ability of the testers and their intuition and experience with similar applications and technologies (sometimes used to strengthen systematic techniques)

D) Test of the interfaces between components and of the interactions with different parts of a system

Answer:

D

Question 4

Question Type: MultipleChoice

What is a "test harness"?

Options:

A) One of the topics that needs to be covered in the final Test Report.

B) A general name for test data that is used by the test cases.

C) A detailed description of a test case to enable its execution by non-expert tester.

D) A test environment comprised of stubs and drivers needed to execute a test.

Answer:

A

Question 5

Question Type: **MultipleChoice**

Which of the following is a valid collection of equivalence classes for the following problem: "An Integer numeric field shall contain values from 1 to 80 both values inclusive"

Options:

A) Less than 0. 1 to 79, 80 and more than 80

B) Less than 0. 1 to 80, more than 80

C) Less than 1. 1 to 80, more than 80

D) Less than 1. 1 to 79, more than 80

Answer:

B

Question 6

Question Type: **MultipleChoice**

Which of the main activities of the fundamental test process does the task 'verify the test environment set up is correct' relate to? [K1]

Options:

A) Planning and control

B) Analysis and design

C) Implementation and execution

D) Evaluating exit criteria and reporting

Answer:

C
