Question 1

Question Type: FillInTheBlank

To complete the sentence, select the appropriate option in the answer area.

Using Recency, Frequency, and Monetary (RFM) values to identify segments of a customer base is an example of _____

Answer:

Explanation:

Classification

Using Recency, Frequency, and Monetary (RFM) values to identify segments of a customer base is an example of 

Question 2

Question Type: MultipleChoice

You use drones to identify where weeds grow between rows of crops to send an Instruction for the removal of the weeds. This is an example of which type of computer vision?

Options:

- A- scene segmentation
- B- optical character recognition (OCR)
- C- object detection

Answer:

C

Explanation:

Object detection is similar to tagging, but the API returns the bounding box coordinates for each tag applied. For example, if an image contains a dog, cat and person, the Detect operation will list those objects together with their coordinates in the image.
