Question 1

Question Type: MultipleChoice

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution-After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen. You created a custom table and added it to your Microsoft Dynamics 365 Marketing application.

A few days later, you create a new system chart for the table. Users report that they are unable to select this chart when they select Show Chart from a table view screen. You need to make the chart available for users to view in the app.

Solution: Add the chart to a dashboard in the app.

Does this meet the goal?

Options:

A- Yes

B- No

Answer:

B

Question 2

Question Type: MultipleChoice

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution-After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen. You created a custom table and added it to your Microsoft Dynamics 365 Marketing application.

A few days later, you create a new system chart for the table. Users report that they are unable to select this chart when they select Show Chart from a table view screen. You need to make the chart available for users to view in the app.

Solution: Edit the app using the Modern App Designer, select the table view from Pages on the left navigation pane, and ensure that the new chart is explicitly selected for inclusion.

Does this meet the goal?

Options:

A- Yes

B- No

Answer:

A

Question 3

Question Type: MultipleChoice

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You created a custom table and added it to your Microsoft Dynamics 365 Marketing application

A few days later, you create a new system chart for the table. Users report that they are unable to select this chart when they select Show Chart from a table view screen.

You need to make the chart available for users to view in the app.

Solution: Edit the app using the Modern App Designer, select the table view from Pages on the left navigation pane, and deselect all charts from the table view panel on the right.

Does this meet the goal?

Options:

A- Yes
