Question 1

Question Type: DragDrop

plans to deploy code changes to the production environment and operations apps implementation. Four sales associates enter and manage customer sales orders.

Sales associates must have access only to the forms that they require for maintaining their customers and sales orders. Sales associates must also have access only to the sales orders that they enter for the specific customers they manage.

The company must provide an annual audit report to an industry compliance governing agency with proof that the sales associates cannot perform certain tasks against their customers such as invoicing. Those tasks must be performed by a different employee of the company.

You need to implement the security controls for the requirements.

Which security controls should you use? To answer, drag the appropriate security controls to the correct requirements. Each security control may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content

NOTE; Each correct selection is worth one point.

Security controls

license keys	license keys
personalizations	security policies

Answer Area

Requirement	Security control
Restrict access to certain forms.	
Restrict access to certain sales orders.	
Enable an industry compliance audit report.	

Answer:

Question 2

Question Type: DragDrop

A company implements Dynamics 365 Finance in a self-service environment. The company plans to deploy code changes to the production environment.

You need to recommend methods to deploy the changes.

What should you recommend? To answer, drag the appropriate deployment methods to the correct code types of changes. Each deployment method may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE Each correct selection is worth one point.

Types of changes

- All-in-one deployable package
- Binary package
- Data package
- Standard deployable package e

Answer Area

Type of change	Deployment method
Deploy a custom fix for an independent software vendor (ISV) solution.	
Deploy Dynamics 365 updates that were downloaded from Lifecycle Services (LCS).	

Answer:

Question 3

Question Type: MultipleChoice

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to is. As a result, these questions will not appear in the review screen.

A company is implementing Dynamics 365 Finance. The company uses Microsoft 365 apps. The company wants to integrate Microsoft Word and Excel into Dynamics 365 Finance. You need to identify the underlying technology that is required.

Solution: Microsoft Entra ID.

Does the solution meet the goal?

Options:

A- Yes

B- No

Answer:

A

Question 4

Question Type: MultipleChoice

A utility company has the financial users. Two of the users need access to supply chain functionality.

You need to provide a licensing strategy for the utility company.

Which two licensing options should you recommend? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

Options:

A- Purchase 18 Dynamics 365 Finance base licenses.

B- Purchase 18 Dynamics 365 Finance attach licenses.

C- Purchase two Dynamics 365 Supply Cham Management attach licenses.

D- Purchase two Dynamics 365 Supply Chain Management base licenses.

E- Purchase 20 Dynamics 365 Finance base licenses.

Answer:

A, C

Question 5

Question Type: Hotspot

A company is implementing Dynamics 365 Finance.

All users must sign into the system using multi-factor authentication. An accounting manager must be able to view and edit invoices by using out-of-the-box functionality.

You need to recommend security solutions.

Which security solutions should you recommend? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

Requirement	Security mechanism
Implement multi-factor authentication.	Microsoft Entra ID Conditional Access
View and edit invoices.	Dynamics 365 role-based security

Answer:

Requirement	Security mechanism
Implement multi-factor authentication.	Microsoft Entra ID Conditional Access
View and edit invoices.	Dynamics 365 role-based security

Dynamics 365 role-based security
Extensible data security (XDS)
Dynamics 365 role-based security
Microsoft Entra ID Conditional Access
Microsoft Entra ID Privileged Identity Management (PIM)

Question 6

Question Type: Hotspot

A company that manufactures car parts is implementing Dynamics 365 Finance on the public cloud.

The company must create a regression testing plan for its One Version strategy. The company determines that it will take only mandatory service updates and apply them when they are generally available. The company must also plan for regression testing the proactive quality updates (PQU).

You need to provide the considerations for the One Version requirements.

Which consideration should you provide for each requirement? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

Requirement	Consideration
Update cadence when not taking service updates	monthly
Notification period before update	at least 3 weeks
Update deference capability	Updates can be paused for up to three versions.

Answer:

Requirement	Consideration
Update cadence when not taking service updates	monthly weekly twice a month **monthly** quarterly
Notification period before update	at least 3 weeks at least 24 hours at least 5 days at least 2 weeks **at least 3 weeks**
Update deference capability	Updates can be paused for up to three versions. Updates can be paused for one month. Updates are prohibited from being paused. **Updates can be paused for up to three versions.**

Question 7

Question Type: DragDrop

A company is implementing Dynamics 365 Supply Cham Management. The company is enrolled in the FastTrack program.

You need to determine when specific tasks occur within the Success by Design framework.

In which stage does each task take place? To answer, drag the appropriate stages to the correct tasks. Each stage may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.
