Question 1

Question Type: OrderList

A telecom provider uses Microsoft SharePoint to track and manage mobile phones that are issued to employees.

All information about employee-issued mobile phones be visible in Dynamics 365. Managers must be able to issue new phones directly from the system.

You need to design an integration solution using Dynamics 365 and SharePoint.

Which four actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions

- Create a blank Power Apps and connect to the SharePoint list.
- Embed the Power Apps into the Dynamics 365 Employee form.
- Use the standard formula and filter function of Power Apps.
- Embed the Power Apps into the SharePoint site.
- Create a SharePoint notification workflow.
- Establish the relationship between Dynamics 365, Power Apps, and the SharePoint list.

Answer area

The interface shows a list of six actions on the left, each in a box with a blue border. To the right of the list is a vertical grey bar with an upward arrow at the top and a downward arrow at the bottom. Two circular icons with arrows pointing right and left are positioned between the list and the answer area. On the right, the 'Answer area' contains four empty rectangular boxes stacked vertically, each with a blue border, intended for the user to place the selected actions in the correct sequence.

Answer:

Answer:

Enable the SharePoint Application Stock Point site.

Use th

Question 2

Question Type: DragDrop

A company plans to implement Dynamics 365 Supply Chain Management. The company has the following requirements:

- *Use mobile devices for warehouse activities including cycle counting.
- *Set up automatic cycle counting work IDs and assign the IDs to workers.
- *Ensure that workers can group work IDs that are specific to a particular location, zone, or work pool.
- *Ensure that workers can specify a cycle counting work ID that has a status of Open.
- *Ensure that workers can count items in a warehouse location at any time.

You need to recommend cycle counting options that meet the company's requirements.

What should you recommend? To answer, drag the appropriate counting options to the correct requirements. Each counting option may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Cycle count options

User directed	<input type="checkbox"/>
System directed	<input type="checkbox"/>
Cycle count grouping	<input type="checkbox"/>
Spot cycle count	<input type="checkbox"/>

Answer Area

Requirement

- Specify a cycle counting work ID that has a status of **Open**.
- Automatically assign a cycle counting work ID to a worker.
- Group work IDs that are specific to a particular location, zone, or work pool.
- Count items in a warehouse location at any time.

Question 3

Question Type: Hotspot

A company is determining which reporting tools to use as part of a Dynamics 365 Finance implementation.

*Scenario A: Power users must use a free form tool to allow other power users to leverage transactional data to be consumed externally.

*Scenario B: Developers must use a modeling tool to allow all users to leverage aggregated data to be consumed internally.

*Scenario C: Developers must use a free form tool to allow all users to leverage transactional and aggregated data to be consumed internally and externally.

*Scenario D: Power users must use a free form tool to allow all users to leverage aggregated data to be consumed internally and externally.

*Scenario E: Power users must use a modeling tool to allow other power users to leverage transactional data to be consumed externally.

You need to recommend which tool should be used for each scenario.

Which tool should you recommend? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

Scenario	Reporting Tool												
A	<table border="1"><tr><td></td><td>▼</td></tr><tr><td colspan="2">Microsoft Excel</td></tr><tr><td colspan="2">Embedded BI</td></tr><tr><td colspan="2">SSRS report</td></tr><tr><td colspan="2">Power BI</td></tr><tr><td colspan="2">Management reporter</td></tr></table>		▼	Microsoft Excel		Embedded BI		SSRS report		Power BI		Management reporter

Question 4

Question Type: DragDrop

A company plans to implement Dynamics 365 Supply Chain Management. The company has the following requirements:

- *Use mobile devices for warehouse activities including cycle counting.
- *Set up automatic cycle counting work IDs and assign the IDs to workers.
- *Ensure that workers can group work IDs that are specific to a particular location, zone, or work pool.
- *Ensure that workers can specify a cycle counting work ID that has a status of Open.
- *Ensure that workers can count items in a warehouse location at any time.

You need to recommend cycle counting options that meet the company's requirements.

What should you recommend? To answer, drag the appropriate counting options to the correct requirements. Each counting option may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Question 5

Question Type: Hotspot

A company is determining which reporting tools to use as part of a Dynamics 365 Finance implementation.

*Scenario A: Power users must use a free form tool to allow other power users to leverage transactional data to be consumed externally.

*Scenario B: Developers must use a modeling tool to allow all users to leverage aggregated data to be consumed internally.

*Scenario C: Developers must use a free form tool to allow all users to leverage transactional and aggregated data to be consumed internally and externally.

*Scenario D: Power users must use a free form tool to allow all users to leverage aggregated data to be consumed internally and externally.

*Scenario E: Power users must use a modeling tool to allow other power users to leverage transactional data to be consumed externally.

You need to recommend which tool should be used for each scenario.

Which tool should you recommend? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

Question 6

Question Type: OrderList

A telecom provider uses Microsoft SharePoint to track and manage mobile phones that are issued to employees.

All information about employee-issued mobile phones be visible in Dynamics 365. Managers must be able to issue new phones directly from the system.

You need to design an integration solution using Dynamics 365 and SharePoint.

Which four actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions

- Create a blank Power Apps and connect to the SharePoint list.
- Embed the Power Apps into the Dynamics 365 Employee form.
- Use the standard formula and filter function of Power Apps.
- Embed the Power Apps into the SharePoint site.
- Create a SharePoint notification workflow.
- Establish the relationship between Dynamics 365, Power Apps, and the SharePoint list.

Answer area

Four empty rectangular boxes for providing an answer.

Ansewr:

Answer:

Embed the Power Apps into the SharePoint site.
