Question 1

Question Type: MultipleChoice

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goal. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

A company is implementing Dynamics 365 Finance and Operations applications.

The company has the following security requirements:

- * Employees working from home must use company-managed devices only to access the applications
- * Users with administrative roles must use multi-factor authentication (MFA).

You need to implement a security solution.

Solution: Create conditional access policies

Does the solution meet the goal?

Options:

A- Yes

B- No

Answer:

A

Question 2

Question Type: MultipleChoice

A company plans to implement Dynamics 365 Finance and Supply Chain Management. The company uses passwords to manage access.

The company wants to replace passwords with Microsoft Azure security features.

You need to recommend a security solution for the company.

What should you recommend?

Options:

- A- Microsoft Entra ID Conditional Access
- B- Windows security
- C- Microsoft Entra ID Privileged Identity Management
- D- Windows Hello

Answer:

A

Question 3

Question Type: MultipleChoice

A company with multiple legal entities implements Dynamics 365 Finance.

The company's financial controller needs a single global report that displays vendor aging across all companies.

The report must meet the following requirements:

- * Leverage standard functionality as much as possible.
- * Minimize development time.
- * Minimize configuration time.

You must identify a tool to create the report Which tool should you use?

Options:

- A- Business document management
- B- SQL Server Reporting Services (SSRS)
- C- Financial Reporter
- D- Electronic reporting tool

Answer:

D

Question 4

Question Type: MultipleChoice

A company plans its disaster recovery strategy for Dynamics 365 finance and operations apps.

They need to determine the maximum expected downtime to the system based on Microsoft's commitment to system uptime.

You need to determine the maximum downtime for the system according to Microsoft.

What is the maximum downtime?

Options:

A- 0.25% per year

B- 0.01% per year

C- 1% per month

D- 0.25% per month

E- 0.1% per month

Answer:

B

Question 5

Question Type: MultipleChoice

A company plans to upgrade from Microsoft Dynamics AX 2012 to Dynamics 365 Finance and Dynamics 365 Supply Chain Management. The company has a large call center that uses a third-party system to enter sales orders.

The company decides to keep the third-party system and integrate it with Dynamics 365 Finance and Dynamics 365 Supply Chain v.10.0 >-:-r---r

The company also wants to reuse the Microsoft Dynamics AX 2012 integration and endpoints with Dynamics 365 Finance and Dynamics 365 Supply Chain Management.

For performance reasons, non-real-time integrations must be avoided.

All solutions that are proposed should be supported by Microsoft in case there are performance issues.

You need to plan the integration strategy.

What should you do?

Options:

- A- Plan for testing in a Tier 2 + environment.
- B- Define custom service API requirements.
- C- Use the Microsoft Excel add-in
- D- Plan for testing in a production environment.

Answer:

D

Question 6

Question Type: MultipleChoice

A company is implementing Dynamics 365 Finance. The company enrolled in the FastTrack program.

You need to explain the benefits of FastTrack.

What are three benefits? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

Options:

- A- predictable success based on past experience
- B- solution design and development for the customer
- C- formalization of roles
- D- early discovery of risks and issues
- E- proactive guidance

Answer:

C, D, E

Question 7

Question Type: MultipleChoice

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the slated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen

A company implementing Dynamics 365 Finance. The company uses Microsoft 365 apps. The company wants to integrate Microsoft word and Excel into Dynamics 365 Finance. You need to identify the underlying technology that is required

Solution: Lifecycle Services (ICS)

Does the solution meet the goal?

Options:

A- Yes

B- No

Answer:

A

Question 8

Question Type: MultipleChoice

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

A company is implementing Dynamics 365 Finance. The company uses Microsoft 365 apps. The company wants to integrate Microsoft Word and Excel into Dynamics 365 Finance. You need to identify the underlying technology that is required.

Solution: Microsoft single sign-on (SSO)

Does the solution meet the goal?

Options:

A- Yes

B- No

Answer:

B

Question 9

Question Type: MultipleChoice

A company uses Dynamics 365 Finance. The company has several integrations with Dynamics 365 Finance that use REST web services.

You must perform unit testing on the web services before you promote the web services to the main build environment

You need to recommend solutions to manually unit test the web services.

Which two tools should you recommend? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point

Options:

- A- Soap UI
- B- Dynamics 365 task recordings
- C- Postman
- D- Azure DevOps
- E- Regression suite automation testing (RSAT)

Answer:

A, C

Question 10

Question Type: MultipleChoice

A Dynamics 365 user is enrolled in the FastTrack program. The user begins the Success by Design framework and is in the first phase of workshops.

You need to plan the subsequent phases.

What are the three remaining phases? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

Options:

- A- Operate
- B- Implement
- C- Prepare
- D- Solution Blueprint Review
- E- Initiate

Answer:

A, B, C

Question 11

Question Type: MultipleChoice

A company is implementing Dynamics 365 Finance and discussing solutions for data analytics. The company has the following business requirements:

- * Use data from external sources in addition to Dynamics 365 finance data.
- * Collect data from devices for reporting.

* Continuously export data from Dynamics 36S without user intervention.

You need to recommend a solution.

What should you recommend?

Options:

A- Power BI

B- Bring your own database (BVOO)

C- Azure Data lake

D- Entity store

Answer:

D

Question 12

Question Type: MultipleChoice

A company uses the vendor collaboration functionality within Dynamics 365 Supply Chain Management.

You must grant an external vendor permission to collaborate with the company. The system must send the vendor an invitation email. Emails must be sent to work email addresses only.

You need to configure user access

Which two actions should you perform? Each correct answer presents part of the solution

NOTE Each correct selection is worth one point.

Options:

- A- Create a new Azure Active Directory tenant
- B- Set up separation of duties
- C- Provision a vendor user.
- D- Assign user roles.

Answer:

C, D
