Question 1

Question Type: MultipleChoice

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

Your network contains an Active Directory domain.

You deploy a Microsoft Entra tenant.

Another administrator configures the domain to synchronize to the Microsoft Entra tenant.

You discover that 10 user accounts in an organizational unit (OU) are NOT synchronized to the Microsoft Entra tenant. All the other user accounts synchronized successfully.

You review Microsoft Entra Connect Health and discover that all the user account synchronizations completed successfully.

You need to ensure that the 10 user accounts are synchronized to the Microsoft Entra tenant.

Solution: From Microsoft Entra Connect, you modify the filtering settings.

Does this meet the goal?

Options:

A- Yes

B- No

Answer:

B

Question 2

Question Type: MultipleChoice

You have a Microsoft 365 subscription that uses Microsoft 365 Defender.

You need to compare your company's security configurations to Microsoft best practices and review improvement actions to increase the security posture.

What should you use?

Options:

A- Microsoft Secure Score

B- Cloud discovery

C- Exposure distribution

D- Threat tracker

E- Exposure score

Answer:

A

Question 3

Question Type: DragDrop

You have an Azure subscription that is linked to a hybrid Microsoft Entra tenant.

All users sync from Active Directory Domain Services (AD DS) to the tenant by using Express Settings in Microsoft Entra Connect.

You plan to implement self-service password reset (SSPR).

You need to ensure that when a user resets or changes a password, the password syncs with AD DS.

Which actions should you perform in sequence? To answer, drag the appropriate actions to the correct order. Each action may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Actions

From the Microsoft Entra admin center, configure on-premises integration password sync and writeback.

From the Microsoft Entra admin center, configure the authentication methods for SSPR.

From the Microsoft Entra admin center, configure the registration settings for SSPR.

Select Group writeback in Microsoft Entra Connect.

Select Password writeback in Microsoft Entra Connect.

Answer Area

Step 1: Validate permissions
Connect accounts

Step 2:

Step 3:

Question 4

Question Type: Hotspot

You have a Microsoft 365 E5 subscription that contains the security groups shown in the following table.

Name	Membership type	Membership rule
Group1	Assigned	<i>Not applicable</i>
Group2	Dynamic	<code>(user.department -eq "Finance")</code>
Group3	Dynamic	<code>(user.department -eq "R&D")</code>

The subscription contains the users shown in the following table.

Name	Department	Assigned group membership
User1	Finance	Group1
User2	Technical	<i>None</i>
User3	R&D	Group1

You have a Conditional Access policy that has the following settings:

* Assignments

o Users

Include: Group1

Exclude: Group2. Group3

o Target resources

Cloud apps

App1

Access controls

Grant

Block access

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Answer Area

Statements	Yes	No
User1 can sign in to App1.	<input type="radio"/>	<input type="radio"/>
User2 can sign in to App1.	<input type="radio"/>	<input type="radio"/>
User3 can sign in to App1.	<input type="radio"/>	<input type="radio"/>

Ans

Question 5

Question Type: MultipleChoice

You have a Microsoft 365 E5 subscription that is linked to a Microsoft Entra tenant named contoso.com.

You purchase 100 Microsoft 365 Business Voice add-on licenses.

You need to ensure that the members of a group named Voice are assigned a Microsoft 365 Business Voice add-on license automatically.

What should you do?

Options:

- A- From the Microsoft 365 admin center, modify the settings of the Voice group.
- B- From the Licenses page of the Microsoft 365 admin center, assign the licenses.
- C- From the Microsoft Entra admin center, modify the settings of the Voice group.

Answer:

C

Question 6

Question Type: Hotspot

Your company has a hybrid deployment of Microsoft 365.

An on-premises user named User1 is synced to Azure AD.

Azure AD Connect is configured as shown in the following exhibit

Use the drop-down menus to select the answer choice that completes each statement based on the information presented in the graphic.

NOTE: Each correct selection is worth one point.

Answer Area

User1 [answer choice].

- cannot change her password from any Micro
- cannot change her password from any Micr
- can change her password by using self-serv
- can change her password from the Microso

If the password for User1 is changed in Active Directory,
[answer choice].

- the password hash will be synchronized to A
- the password hash will be synchronized to A
- a new randomly generated password will be
- the password hash in Azure AD will be unch

Question 7

Question Type: MultipleChoice

You have a Microsoft 365 E5 subscription.

Users have Android or iOS devices and access Microsoft 365 resources from computers that run Windows 11 or MacOS.

You need to implement passwordless authentication. The solution must support all the devices.

Which authentication method should you use?

Options:

A- Windows Hello

B- FIDO2 compliant security keys

C- Microsoft Authenticator app

Answer:

C

Question 8

Question Type: Hotspot

You have an Azure AD tenant that contains the users shown in the following table.

Name	Role
User1	Global Administrator
User2	Billing Administrator
User3	<i>None</i>

You enable self-service password reset for all users. You set Number of methods required to reset to 1, and you set Methods available to users to Security questions only.

What information must be configured for each user before the user can perform a self-service password reset? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

User1: ▼
Email address only
Phone number only
Security questions only
Phone number and email address

User2: ▼
Email address only
Phone number only
Security questions only
Phone number and email address

User3: ▼
Email address only
Phone number only
Security questions only
Phone number and email address

Question 9

Question Type: MultipleChoice

You have a Microsoft 365 E5 subscription.

You create a Conditional Access policy that blocks access to an app named App1 when users trigger a high-risk sign-in event.

You need to reduce false positives for impossible travel when the users sign in from the corporate network.

What should you configure?

Options:

- A- exclusion groups
- B- multi-factor authentication (MFA)
- C- named locations
- D- user risk policies

Answer:

C
