Answer:

B

Question 2

Question Type: MultipleChoice

What is a Manifestation instance owned by?

Options:

A- the Manifestor abstraction

B- the PackageableElement(s) that manifests an artifact

C- the artifact that is manifested

D- the set of artifacts owning other Manifestations

E- the Artifact and PackageableElement classifiers share ownership

Answer:

C

Question 3

Question Type: **MultipleChoice**

The InfrastructureLibrary satisfies which of the following design requirements? (Choose two)

Options:

A- defines IDL interfaces so that model interchange is fully supported

B- architecturally aligns UML, MOF, and OCL so that model interchange is fully supported

C- architecturally aligns UML, MOF, and CWM so that model interchange is fully supported

D- allows customization of UML through profiles and new languages based on the same metalanguage core as UML

E- defines a metalanguage core that can be used to define a variety of metamodels, including UML, MOF, and CWM

Answer:

D, E

Question 4

Question Type: MultipleChoice

What does a local precondition mean?

Options:

A- The modeler expects the precondition to be true when an action begins executing.

B- An action begins executing when the precondition becomes true.

C- An action may not begin executing unless the precondition is true.

D- The modeler expects the precondition to be true when an activity begins executing.

E- An activity may not begin executing unless the precondition is true.

F- An activity begins executing when the precondition becomes true.

Answer:

A

Question 5

Question Type: **MultipleChoice**

When may a ReplyAction be invoked?

Options:

A- only in conjunction with a ReadSelfaction

B- only in conjunction with a SendSignalAction

C- only in conjunction with an AcceptEventAction

D- at any time

E- only in conjunction with an AcceptCallAction

Answer:

E

Question 6

Question Type: MultipleChoice

An information flow may NOT occur between which elements?

Options:

A- packages

B- instance specifications

C- associations

D- use cases

E- classes

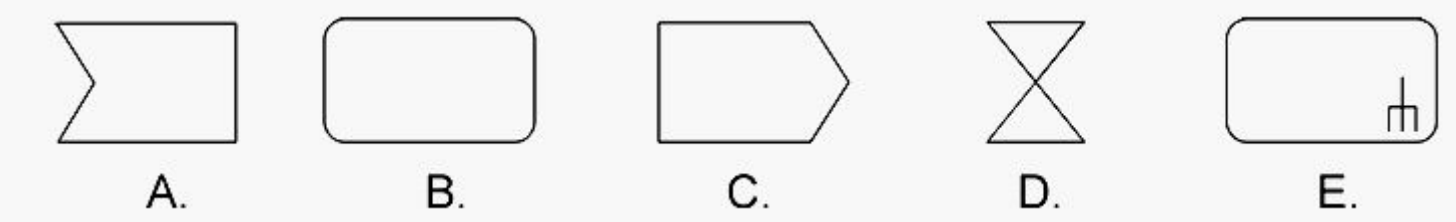
Answer:

C

Question 7

Question Type: **MultipleChoice**

Which symbol depicts an AcceptTimeEventAction?



Options:

A- Exhibit A

B- Exhibit B

C- Exhibit C

D- Exhibit D

E- Exhibit E

Answer:

D

Question 8

Question Type: MultipleChoice

What is usually true of an ExecutionEnvironment?

Options:

A- an implementation of a state machine

B- a standalone type of node

C- part of a more general node

D- an infrastructure in which actions occur

Answer:

C

Question 9

Question Type: MultipleChoice

An association class CANNOT be defined between which two modeling elements?

Options:

A- two stereotyped classes

B- power type and another element

C- itself and another element

D- two classes

Answer:

C

Question 10

Question Type: MultipleChoice

What is a power type?

Options:

A- classifier whose instances are operations of another classifier

B- classifier whose instances are objects of another classifier

C- classifier whose instances are subclasses of another classifier

D- classifier containing a very large number of instances

Answer:

C

Question 11

Question Type: MultipleChoice

OCL expressions may NOT contain which special character or character combinations?

Options:

A- @

B- ..

C- .

D- >=

E- ~

F- ->

Answer:

E

Question 12

Question Type: MultipleChoice

How does OCL identify comments?

Options:

A- // text

B- /* text

C- -- text

D- ' text'

E- 'text'

Answer:

C
