Question 1

As part of maintaining (importing new employees that were added last week) project enterprise labor resources in your organization, you submit the Maintain Project Enterprise Labor Resources process to create and update resources based on changes in HCM. You define maintenance conditions on the Manage Project Enterprise Labor Resource page to process both employees and contingent workers. (Choose the best answer.)

Options:

A- Pool Membership

B- attributes that the project enterprise resources are assigned after creation

C- Jobs

D- Person Type

Answer:

D

Explanation:

Manage Project Enterprise Labor Resource Maintenance Conditions

Project Enterprise Labor Resources: How They Are Automatically Created and Maintained

Run the Maintain Project Enterprise Labor Resources process to create resources, remove resource availability for staffing, and maintain the resource search index.

Settings That Affect the Maintain Project Enterprise Labor Resources Process

Create and maintain project enterprise labor resources by defining a set of conditions that specify the employees and contingent workers in Oracle Fusion Human Capital Management (HCM) to create as resources in Oracle Fusion Project Portfolio Management. Define the resource attribute values, such as the resource calendar and primary project role, to assign to the new resources.

The following table lists the criteria that you define for selecting HCM persons to create as project enterprise labor resources.

Selection Criteria

Description

Person type

Select the HCM person type for the process to use as criteria when selecting HCM persons to create as resources. Available person types are employees, contingent workers, or both employees and contingent workers.

Option to select people based on job

Select this option for the process to create resources for HCM persons with specific jobs.

Caution If you do not select job criteria for this condition, the process will create resources for all eligible people based only on the person type.

Jobs

If you selected the option to select people based on job, then select the jobs for the process to use as HCM person selection criteria.

The following table lists the attributes for which you specify values to assign to resources that are created for the condition.

Resource Attribute

Description

Option to manage resource availability and staffing

Select this option for resource managers to manage the availability and project staffing of resources who are created based on the condition. Resources who are managed in Oracle Fusion Project Resource Management are eligible to fulfill project resource requests.

Calendar

Select the resource calendar for resources that are created based on the condition. The resource calendar defines the work schedule for project enterprise labor resources, and includes working days and hours and any exceptions, such as holidays.

Primary project role

Select the primary project role for resources that are created based on the condition. Project roles are maintained in Oracle Fusion Project Management.

Cost rate and currency

Enter the cost rate and currency for resources that are created based on the condition.

Bill rate and currency

Enter the bill rate and currency for resources that are created based on the condition.

Question 2

Question Type: **MultipleChoice**

Your customer wants to generate accounting based on project information associated with the transaction for all subledger transactions. Identify three subledger applications for which the project source is available for deriving accounts when configuring subledger accounting. (Choose three.)

Options:

A- Receipt Accounting

B- Payables

C- Fixed Asset

D- Purchasing

Answer:

A, B, D

Explanation:

Topic - Deriving Projects-Related Accounts

Question 3

Question Type: MultipleChoice

Your customer has implemented Oracle Project Portfolio Management Cloud recently and they have hired new employees for their Professions Services business. These employees are set up in Oracle Human Capital Management Cloud, but the Project Administrators are unable to add them as resources in the Planning Resource Breakdown Structure.

What are three conditions for new employees to show up in the list? (Choose three.)

Options:

A- Current date is before the effective date of the resource, and you did not enable the "Include people with future-dated effective start dates" option during the search.

B- All new employees created as persons must have an active supervisor.

C- All new employees created as persons must be assigned to a department.

D- All new employees created as persons must have an active assignment.

E- All new employees created as persons must have an active project role.

Answer:

A, C, D

Explanation:

Ref: https://docs.oracle.com/en/cloud/saas/project-portfolio-management/19b/oapfm/project-foundation-configuration-define-project-resource-breakdown-structures.html#OAPFM180158_2

Why can't I find persons in the list of resources when I enter team members, planning resources, or person rate schedules?

You can't find persons in the list of resources when you enter team members, planning resources, or person rate schedules in the following situations:

The administrator didn't assign a department while creating users. Persons must have an active assignment and be assigned to a department in Oracle Fusion Human Capital Management before they can be added as team members or entered as resources on the planning resource breakdown structure or person rate schedule.

The resource isn't active in Oracle Fusion Human Capital Management because the current date is before the effective date of the resource. If you want to include persons who will start in the future, select the Include people with future-dated effective start dates option when you search for the person.

Persons assigned as project managers aren't active as of the project start date.

The assignment of the person is terminated, and an appropriate value isn't set for the number of days to display people with terminated assignments. You can set the profile value appropriately at the site profile level using the Specify Number of Days to Display People with Terminated Assignments task in the Setup and Maintenance work area.

Question 4

Question Type: MultipleChoice

You are now the project manager of a newly created implementation project. Which two items are not part of managing an implementation project?

Options:

A- Assign tasks to various users who are responsible for managing setup data.

B- Monitor the progress of completing setup tasks.

C- Select the offering you want to implement.

D- Generate a list of setup tasks.

E- Enable optional functional areas and features by opting in.

Answer:

A, D

Question 5

Question Type: **MultipleChoice**

You want to create a few project roles so as to restrict access in the Project Financial Management work area to only the specific projects in which an employee is assigned as a team member. What are the two default project roles available to meet this requirement? (Choose two.)

Options:

A- Project Executive - Security based on Project Hierarchy

B- Project Accountant - Security based on BU for Assets, Expenditure BU for Costs and Contract BU for Revenue

C- Project Manager - Security based on Project Assignment

D- Project Billing Specialist - Security based on Contract BU

E- Project Team Member - Security based on Project Assignment

Answer:

C, E

Explanation:
