Answer:

A, C

Question 3

Question Type: MultipleChoice

Which two statements are accurate about how ADF Business Components can be used in a task flow for a human task? (Choose two.)

Options:

- A- They can create and insert a new row in a database table.
- B- They can invoke wildcard control flow rules in the task flow.
- C- They can initialize the information displayed on a form when given an ID from the process payload.
- D- They can declaratively map database information back into the process payload.
- E- They can invoke task flow call activities.

Answer:

B, E

Question 4

Question Type: MultipleChoice

Which two statements are true about BPM Suite product architecture? (Choose two.)

Options:

- A-** The Process Asset Manager is a container of reusable, shared, implementation assets available to all processes within a BPM project.
- B-** Business architecture modeling is supported by a third-party product that Oracle resells as part of the BPM Suite 12c product family.
- C-** BPM Suite leverages SOA Suite infrastructure and tooling to support key design-time and run-time features.
- D-** case Management is an Oracle add-on product to add adaptive case management support to BPM Suite.
- E-** BPM Suite supports BPMN process modeling notation in both BPM Process Composer and BPM Studio.

Answer:

A, D

Question 5

Question Type: MultipleChoice

Which two statements are true about an auto-generated ADF task form for a human task? (Choose two.)

Options:

- A-** It can be customized by changing the layout and by adding and removing UI components.
- B-** It is created in a separate project and in a directory that you select.

- C-** You initiate auto-generation from the properties window for the human task activity on your model.
- D-** By default, it is automatically deployed when you deploy your BPM project.

Answer:

B, C

Question 6

Question Type: MultipleChoice

Which two objectives can you achieve by using business rules to direct human workflow? (Choose two.)

Options:

- A-** Load balance tasks among users based upon server utilization.
- B-** Redirect the process flow as specified in the BPMN model.
- C-** Escalate and reassign a task to the manager of the current assignee.
- D-** Skip all subsequent routing and mark a task as complete.

Answer:

B, C

Question 7

Question Type: MultipleChoice

Which two statements are true about business indicators used for process analytics? (Choose two.)

Options:

- A-** A counter must be associated with a counter mark in order for the counter to be incremented.
- B-** Measures specify how process analytics data can be filtered or grouped.
- C-** If you do not define any business indicators, no data is captured at a sampling point.
- D-** Measurement marks are defined on sequence flows and are visible on the model.
- E-** The dimensions you have defined are visible on the process model.

Answer:

A, D
