Question 1

Question Type: MultipleChoice

Which of the following is not a patient's right covered under HIPPA?

Options:

- A- The right to request and amendment to his or her health record.
- B- The right to obtain an accounting of any disclosures of his her protected health information.
- C- The right to obtain a copy of his her designated record set of protected health information.
- D- The right to receive compensatory and punitive damage for violations of HIPPA

Answer:

D

Explanation:

HIPPA does not discuss consequences for violations of the law

Question 2

Question Type: MultipleChoice

If a patient is experiencing nausea and vomiting, which of the following dosage forms would be more effective?

Options:

A- Capsule

B- Oral solution

C- Suppository

D- Tablet

Answer:

C

Explanation:

If patient is experiencing N/V, they would have trouble keeping oral meds down. Suppository would do the job but there is not a lot of meds available in this form.

Question 3

Question Type: MultipleChoice

Which of the following is not an example of an oral dosage form?

Options:

- A- Amoxicillin
- B- Depakote
- C- Nitrostat
- D- Synthroid

Answer:

C

Explanation:

Nitrostat is available as a sublingual dosage form.

Question 4

Question Type: MultipleChoice

What is the weight of grams of 4 fl ounce of orange peel with specific gravity of 0.844?

Options:

A- 84

B- 103

C- 112

D- 142

Answer:

B

Explanation:

Specific Gravity:

Ratio between the weight of a substance and the weight of an equal volume of water, 1ml water weighs 1g.

4 fl in ml = 120 ml.

Therefore, $0.84 = \text{wt substance} / 120\text{g}$.

Question 5

Question Type: MultipleChoice

To which schedule does meperidine belong?

Options:

A- II

B- III

C- IV

D- V

Answer:

A

Explanation:

meperidine (Demerol)
