# Question 1

---

## Question Type: MultipleChoice

---

A developer working on a multi country site is asked to store country specific data that drives the creation of a country selector. Examples of the data stored are:

- \* Pricebook to be used
- \* Image URL for country flag

The data used in staging also applies in production, but only for this site.

Which approach should the developer take to implement these requirements?

### Options:

---

- A)** Extend the Locale System Object to contain the custom data for each country.
- B)** Create a replicable, site-specific Custom Object with the custom data for each country.
- C)** Create site-specific content assets to store the data for each country.

### Answer:

---

B

## Question 2

---

**Question Type:** MultipleChoice

---

A merchant wants to obtain an export file that contains all the products assigned to their Storefront catalog. They do not know how to achieve this easily without manual processing, so asked their developer to help Generate this. The merchant s Instance setup is as follows:

- \* They have one Master catalog and one storefront catalog.
- \* Some, but not all, of the products in the Master catalog are assigned to categories within the Storefront catalog.

Which method allows the developer to generate the export for the merchant?

### **Options:**

---

- A)** Using the Catalog Import and Export module, export the Master catalog with a category-assignment search to export specific
- B)** Using the Site Import and Export module, export both the Site catalog and the Master catalog in a single archive.
- C)** Using the Site Import and Export module, export the Master catalog filtered by the site catalog categories to export specific products.

### **Answer:**

---

C

## Question 3

---

**Question Type:** MultipleChoice

---

The developer has been given the following business requirement:

\* The shipping method, 'Free Standard Ground Shipping' has an exclusion for products with category equals or is child of electronics-televisions.'

\* The marketing department has scheduled a sale offering a "Free Standard Ground Shipping" method for brand XyzTv televisions for the next 3 months.

What method accomplishes this while following best practices?

### Options:

---

- A)** Extend the code in `cartridge/models/shipping/shippingMethod.js` using `module`, `superModule` and add an exception for the specified brand.
- B)** Extend the `CheckoutShippingservices` controller using `module.superModule` and add an exception for the specified brand
- C)** Create an allow list for the existing shipping method by adding a product exclusion for 'brand equals XyzTV' to the exclusion list for 'Free Standard Ground Shipping.'

**Answer:**

---

C

## Question 4

---

**Question Type:** MultipleChoice

---
