Question 1

Question Type: MultipleChoice

Which of the following steps in the production process can be automated with the help of "Automated Runs"?

Note: There are 2 correct answers to this question.

Options:

- A- Closing of production lots
- B- Finishing of production orders
- C- Confirmation of production tasks
- D- Release of production orders

Answer:

C, D

Question 2

Question Type: MultipleChoice

What information from a statement of work is considered when creating a project?

Note: There are 2 correct answers to this question.

Options:

- A- The prices
- B- The team
- C- The invoice schedule
- D- The service delivery schedule

Answer:

B, C

Explanation:

When creating a project, information from a statement of work to consider includes the service delivery schedule, the team, and the invoice schedule. The prices mentioned in the statement of work are also taken into account, but usually in a separate budgeting process.

Question 3

Question Type: MultipleChoice

Which of the following prerequisites are needed to create a customer demand for a material that is planned in a project?

Note: There are 2 correct answers to this question.

Options:

- A- The material must be ordered through a project purchase request
- B- The material must be a stocked material
- C- The material must be contained in a project stock order
- D- The material must be sold through the sales order that is linked to the project

Answer:

B, C

Question 4

Question Type: MultipleChoice

Which business scenarios does SAP Business ByDesign support for selling and executing services?

Note: There are 3 correct answers to this question.

Options:

- A- Project-Based Services
- B- Selling Standardized Services
- C- Make-to-Order
- D- Field Service and Repair
- E- Over-the-Counter Sales

Answer:

A, B, D

Explanation:

1. Project-Based Services: SAP Business ByDesign supports project-based services where the service is performed according to a project plan, with defined start and end dates, budget, and resources.
2. Selling Standardized Services: SAP Business ByDesign supports selling standardized services, where the service offerings are pre-defined and standardized, with a fixed price and scope.
3. Field Service and Repair: SAP Business ByDesign supports field service and repair scenarios, where the service is performed on-site at the customer location or at a third-party location.

Question 5

Question Type: MultipleChoice

Which of the following processes lets you monitor the in-transit stock in the "Stock Overview Common Task"? (Choose 3)

Options:

- A- Customer returns
- B- Third-Party order fulfillment
- C- Intracompany stock transfer
- D- Intercompany stock transfer

Answer:

A, C, D

Question 6

Question Type: MultipleChoice

With which priority is the functional area automatically determined?

Options:

- A- First: General ledger account
Second: Cost center type
- B- First: Cost center type
Second: Profit center
- C- First: Profit center
Second: General ledger account
- D- First: Cost center type
Second: General ledger account

Answer:

A

Question 7

Question Type: MultipleChoice

You have set up a project intercompany scenario with a customer project in buying company "B", and service performers from the selling company "S".

A project team member from "S" creates an expense report with an account assignment to the customer project.

In company "B", which of the following documents contain information about the recorded expenses?

Note: There are 2 correct answers to this question.

Options:

- A- Purchase order
- B- Expense report
- C- Supplier invoice
- D- Goods and services receipt

Answer:

C, D

Question 8

Question Type: MultipleChoice

For which of the following business objects can you create invoice schedules in SAP Business ByDesign?

Note: There are 2 correct answers to this question.

Options:

- A- Opportunities
- B- Service orders
- C- Contracts
- D- Sales orders

Answer:

C, D

Explanation:

You can create invoice schedules in SAP Business ByDesign for both contracts and sales orders. With invoice schedules, you can define the billing frequency, billing date, and other parameters for billing your customers. For example, you can define a frequency of 'monthly' and the associated billing date to generate invoices for your customers on a monthly basis.

Question 9

Question Type: MultipleChoice

A company needs to provide statutory reporting in local GAAP within its country of registration.

In addition, IFRS statutory reports are necessary due to group reporting.

Which one of the following approaches can achieve multi-GAAP reporting in SAP Business ByDesign?

Options:

- A- Define one company with a local accounting principle and one with an accounting principle IFRS.
- B- Close your accounting period in local GAAP and do adjustment postings to achieve IFRS.
- C- Define one set of books with a local accounting principle and one set of books with an accounting principle IFRS.
- D- Define one ledger for the local accounting principle and one ledger with an accounting principle IFRS.

Answer:

C

Question 10

Question Type: MultipleChoice

What is the correct priority and sequence to determine the cost rate in case of an internal service confirmation?

Options:

- A- First: Company-wide service cost rate
Second: Group-wide service cost rate
- B- First: Resource cost rate
Second: Company-wide service cost rate
- C- First: Company-wide service cost rate
Second: Resource cost rate
- D- First: Resource cost rate
Second: Group-wide service cost rate

Answer:

B

Question 11

Question Type: MultipleChoice

How would you initiate a third-party order fulfillment process in the system?

Options:

- A- By selecting 'External' for the fulfillment field in the sales order logistics details in the Outbound Logistics Control work center.
- B- By selecting an externally managed location as the ship-from site in the sales order item.
- C- By selecting the 'Source Of Supply Priority' rule as the procurement type in the planning tab of the material master.
- D- By selecting 'External' for the fulfillment field in a sales order item.

Answer:

D

Question 12

Question Type: MultipleChoice

Which of the following tasks are exclusive to a key user?

Note: There are 3 correct answers to this question.

Options:

- A- Maintain personal views and selections
- B- Create custom reports and assigns them to work center views
- C- Create corporate KPIs, which are monitored by business users
- D- Adapt work center overview pages for others
- E- Create work center and work center views

Answer:

A, B, C

Explanation:

According to the SAP Business ByDesign, a key user can perform the following tasks which are exclusive to them:

1. Maintain personal views and selections - A key user has the ability to customize the view of their work center, including the layout, personal views and selections.
2. Create custom reports and assigns them to work center views - Key users can create custom reports, including ad hoc reports, based on the data available in the SAP Business ByDesign

system, and assign them to work center views.

3. Adapt work center overview pages for others - Key users have the ability to adapt the work center overview pages for other users to meet their specific needs.
