Question 1

Question Type: MultipleChoice

Who must ensure that the work done for a Product Backlog item conforms to the Definition of "Done?"

Options:

- A) The test team.
- B) The Scrum Team.
- C) The Scrum Master.
- D) The Product Owner.
- E) The Development Team.

Answer:

E

Explanation:

The Development Team owns the Definition of "Done" and is accountable for the quality of the Product Backlog items.

Question 2

Question Type: MultipleChoice

What should a Development Team do if they don't understand a functional requirement?

Options:

- A) Request a specialist to be added to the Development Team.
- B) Move the item to a future Sprint.
- C) Complete as much as possible and add the remaining work as a new Product Backlog item.
- D) Work with the Product Owner to determine what is possible and acceptable.

Answer:

D

Question 3

Question Type: MultipleChoice

Scrum has a role called "Project Manager."

Options:

- A) True
- B) False

Answer:

B

Explanation:

The Scrum Framework only recognizes three roles although others may be needed to help the team build the most valuable product possible.

Question 4

Question Type: MultipleChoice

Scrum has a role called "Project Manager."

Options:

- A) True
- B) False

Answer:

B

Explanation:

The Scrum Framework only recognizes three roles although others may be needed to help the team build the most valuable product possible.
