Question 1

Question Type: MultipleChoice

Which query contains a Snowflake hosted file URL in a directory table for a stage named bronzestage?

Options:

A- list @bronzestage;

B- select * from directory(@bronzestage);

C- select metadata$filename from @bronzestage;

D- select * from table(information_schema.stage_directory_file_registration_history(
stage name=>'bronzestage1));

Answer:

B

Explanation:

According to the Snowflake documentation1, a directory table stores a catalog of staged files in cloud storage and can be queried to retrieve theSnowflake-hosted file URLto each file in the stage. A file URL has the following format:

https:///api/files/<db_name>.<schema_name>.<stage_name>/<relative_path>

Based on this information, I think the query that contains a Snowflake hosted file URL in a directory table for a stage named bronzestage isB. select * from directory(@bronzestage);

Question 2
