## Question 1

---

**Question Type:** MultipleChoice

---

Which two must you specify when using a datapool as the delivery entity when configuring synchronization profile? (Choose two.)

### Options:

---

- A- delivery mechanism
- B- output map
- C- repository listing
- D- input map
- E- zip file storage location

### Answer:

---

A, B

## Question 2

---

**Question Type:** MultipleChoice

---

What are two functions of a TIBCO ActiveMatrix BusinessWorks Critical Section Group? (Choose two.)

**Options:**

---

- A-** escalates the execution priority of the grouped activities
- B-** isolates resource-intensive activities for performance tuning
- C-** controls concurrent accesses to shared resources
- D-** synchronizes process instances so that only one executes the grouped activities at a time

**Answer:**

---

C, D

## Question 3

---

**Question Type: MultipleChoice**

---

What is the effect of using the Agent. .checkDuplicates property at the agent class level?

**Options:**

---

- A- applies to any <AgentClassName> agents deployed in the specified Processing Unit
- B- applies to all <AgentClassName> agents in the cluster
- C- applies to any <AgentClassName> agents in the project
- D- applies to any <AgentClassName> agents used in any Processing Unit

**Answer:**

---

D

## Question 4

---

**Question Type: MultipleChoice**

---

Which three statements are correct about the Rendezvous distributed Queue (RVCMQ) feature of TIBCO Rendezvous? (Choose three.)

**Options:**

---

- A- Senders can either use reliable or RVCM protocol to send messages.

- B-** To orchestrate load balancing, senders are distributed group members.
- C-** From outside, the group appears to be a single transport object.
- D-** It is best suited for one-of-n delivery, in order to balance the load across the servers.

**Answer:**

---

A, C, D

## Question 5

---

**Question Type:** MultipleChoice

---

When configuring bwagents, which two options are available for setting the persistence and the transport provider? (Choose two.)

**Options:**

---

- A-** DBEMS
- B-** ActiveSpaces
- C-** NFS
- D-** TCP

E- EMS

**Answer:**

---

A, B

## Question 6

---

**Question Type: MultipleChoice**

---

Given the configuration in the acl.conf file; TOPIC=topic.sample1 USER=Bob PERM=subscribe TOPIC=topic\* Group=engineering PERM=publish,subscribe Which statement is true if Bob is a member of the engineering group?

**Options:**

---

- A- Bob can publish and subscribe to only topic.sample1.
- B- Bob can publish and subscribe to both topic.sample1 and topic.sample2.
- C- Bob can only subscribe to topic.sample1.
- D- Bob can publish to only topic.sample1 but can subscribe to both topic.sample1 and topic.sample2.
- E- Bob can publish to only topic.sample2 but can subscribe to both topic.sample1 and topic.sample2.

**Answer:**

---

B

## Question 7

---

**Question Type:** MultipleChoice

---

Server R defines a global queue named Q1. R is also the owner of Q1. Servers P and S define routed queues Q1@R. The servers P, R, and S are connected by routes. Which two statements are true? (Choose two.)

**Options:**

---

- A-** Messages are available to local and remote consumers even before the message reaches the home queue.
- B-** When a message is sent from server P to Queue Q1, P forwards the message to the home queue on server R.
- C-** When a message is sent from server S to Q1 and the route is not connected, the message is not delivered, and the client application receives the exception `DESTINATION_NOT_AVAILABLE`
- D-** If Server P or the route connection from P to R fails, a consumer application of server P will not be able to receive messages from Q1 until the servers resume communication.

**Answer:**

---

B, D

## Question 8

---

**Question Type:** MultipleChoice

---

Which two elements enable message tracing on an Enterprise Message Service server? (Choose two.)

### Options:

---

- A- on a message
- B- on a producer
- C- on a destination
- D- on a consumer

### Answer:

---

A, C

## Question 9

---

**Question Type: MultipleChoice**

---

What are four TIBCO Business Studio basic data types? (Choose four.)

**Options:**

---

- A- Float
- B- Boolean
- C- Long
- D- Date Time
- E- Date
- F- Integer Number

**Answer:**

---

B, D, E, F
