Question 8

Question Type: MultipleChoice

Karen is the Webmaster for her company. Management would like to make the company's intra net site more effective by providing links to internal HR forms for all employees to access. These forms are currently stored on the company s file server and are updated quarterly. For security reasons, the Web server does not allow linking to the company s file server. How should Karen create these links?

Options:

- A-** Upload the forms to the Web server and create local relative links to the files.
- B-** Upload the forms to the Web server and create local absolute links to the files.

C- Upload the forms to the Web server and create external relative links to the files.

D- Upload the forms to the Web server and create external absolute links to the files.

Answer:

A

Question 9

Question Type: MultipleChoice

Your customer scheduled a meeting to discuss a project you are managing. Early testing indicates that there are currently quality problems with some of the more complex features. The customer stated that quality and budget are his two main concerns: The project must be developed within budget and must be very high quality. When you asked the customer if he would be willing to extend the deadline to meet his objectives, he stated this was not possible. What adjustment to the project triangle components can you suggest to meet your customer's needs?

Options:

A- Suggest that the scope be limited to include only the most important features.

B- Inform the customer that he must compromise one of the three elements of a project triangle: quality, budget or schedule.

- C-** Suggest that the customer hire temporary contractors.
- D-** Suggest that the customer use a Gantt chart to add time to the project.

Answer:

A

Question 10
