- E- What you know

### Answer:

---

A, C, E

## Question 2

---

**Question Type: MultipleChoice**

---

What are two primary questions that any good physical security system should consider regarding any visitor to the data center?

**Options:**

---

- A- 'Who are you?' and 'Why are you here?'
- B- 'Who are you?' and 'Where are you going?'
- C- 'Why are you here?' and 'Where did you come from?'
- D- 'Where did you come from?' and 'Where are you going?'

**Answer:**

---

A

## Question 3

---

**Question Type: MultipleChoice**

---

In a conceptual discussion on security, which example illustrates the concept of "depth of security"?

**Options:**

---

- A-** The data center is built below ground level in order to further limit access.
- B-** An amount of the annual budget is earmarked to be spent on security solutions.
- C-** A variety of physical security technologies is deployed within the physical space of the data center.
- D-** The inner area is protected both by its own security access methods and by the security levels of the areas that enclose it.

**Answer:**

---

D

## Question 4

---

**Question Type:** MultipleChoice

---

What is the primary reason that physical security reduces data center downtime?

**Options:**

---

**A-** Physical security systems can provide an early warning that systems are about to go down.

**B-** Physical security reduces the presence of individuals in the data center, thereby reducing human error.

**C-** Physical security determines which individuals are competent to work in the data center.

**D-** By maintaining a record of who enters and leaves the data center, physical security can provide root cause analysis data when an error occurs.

**Answer:**

---

B

## Question 5

---

**Question Type: MultipleChoice**

---

What is the primary purpose of data center physical security?

**Options:**

---

- A- To monitor activities of data center employees

**Answer:**

---

C

## Question 6

---

**Question Type: MultipleChoice**

---

Which three access control methods are examples of "what you have"?

(Choose three.)

**Options:**

---

- A- Fingerprint
- B- Smart card
- C- Badge with photo
- D- Badge with bar code
- E- Personal identification number

**Answer:**

---

B, C, D

## Question 7

---

**Question Type: MultipleChoice**

---

Which access control method is an example of "who you are"? (Choose three.)

**Options:**

---

- A- Iris scan
- B- Fingerprint
- C- Voice recognition
- D- Badge with photo
- E- Employee ID number

**Answer:**

---

A, B, C

## Question 8

---

**Question Type:** MultipleChoice

---

A coded lock is an example of which general type of access control?

**Options:**

---

- A- Who you are
- B- Where you are

**C-** What you have

**D-** What you know

**Answer:**

---

D

## Question 9

---

**Question Type: MultipleChoice**

---

What are the three basic principles of identification from LEAST secure (1) to MOST secure (3)?

**Options:**

---

**A-** (1) what you know, (2) what you have, (3) who you are

**B-** (1) what you know, (2) who you are, (3) what you have

**C-** (1) what you have, (2) who you are, (3) what you know

**D-** (1) what you have, (2) what you know, (3) who you are

**Answer:**

---

D

## Question 10

---

**Question Type: MultipleChoice**

---

What is the greatest physical threat to a data center?

**Options:**

---

**A-** Fire

**B-** Dust

**C-** Water

**D-** People

**Answer:**

---

D

## Question 11

---

**Question Type:** MultipleChoice

---

Which method of physical security offers superior protection?

**Options:**

---

**A-** Smart card

**B-** Biometric scan

**C-** Video surveillance

**D-** Combination of methods

**Answer:**

---

D
