## Question 1

---

### Question Type: MultipleChoice

---

The administrator has to change the IP address of the Internet WAN link from DHCP to Static. The device template under Workflows has been updated with this change, but the change is not reflected in the branch device configuration.

In this scenario, which two steps should you take to solve this problem? (Choose two.)

### Options:

---

- A- Commit the appliance configuration to the Device Template.
- B- Commit the Device Template configuration to the appliance.
- C- Update the controller's configuration with the static IP address of the branch's Internet WAN link.
- D- Update the Device Bind Data in Workflows with the IP address and gateway of the Internet WAN link.

### Answer:

---

B, C

## Question 2

---

**Question Type: MultipleChoice**

---

What are two roles of a Versa Controller? (Choose two.)

**Options:**

---

- A-** to provide connectivity to the rest of the head-end components
- B-** to provide Internet breakout to the SD-WAN branches
- C-** to onboard the SD-WAN branches
- D-** to provide clock synchronization to the SD-WAN branches

**Answer:**

---

A, C

## Question 3

---

**Question Type: MultipleChoice**

---

An administrator tries to run a speed test from a branch's Internet link to the Internet link of a remote site branch. However, the speed test fails.

In this scenario, what are two causes for the failure? (Choose two.)

**Options:**

---

- A- The SLA path status between the branch sites over the Internet link is down.
- B- The speed test module has not been activated.
- C- The speed test server is not enabled on the remote site.
- D- The speed test client is not enabled on the local site.

**Answer:**

---

A, C

## Question 4

---

**Question Type: MultipleChoice**

---

Which three components of Versa solution use the Versa Operating System? (Choose three.)

**Options:**

---

- A- Versa Director
- B- Versa Controller
- C- Versa Analytics
- D- Versa SD-WAN CPE
- E- Versa SD-WAN Gateway

**Answer:**

---

B, D, E

## Question 5

---

**Question Type:** MultipleChoice

---

Which two statements about the Versa SD-WAN control plane are true? (Choose two.)

**Options:**

---

- A- SD-WAN topology is discovered using eBGP.
- B- SD-WAN topology is discovered using MP-iBGP.

**C-** Versa Private Address Family is used to advertise topology information.

**D-** NETCONF advertises topology changes.

**Answer:**

---

B, D

## Question 6

---

**Question Type: MultipleChoice**

---

Users must be required to justify why they are visiting a social media site.

In this scenario, which feature accomplishes this task?

**Options:**

---

**A-** IP filtering

**B-** SSL Inspection

**C-** DNS filtering

**D-** Captive Portal

**Answer:**

---

D

## Question 7

---

**Question Type:** MultipleChoice

---

Which two components are part of Versa Secure SD-WAN Head-end? (Choose two.)

**Options:**

---

**A-** Versa Director

**B-** Versa Hub

**C-** Versa Gateway

**D-** Versa Analytics

**Answer:**

---

A, D

## Question 8

---

**Question Type:** MultipleChoice

---

Which three features are included in the Versa Operating System? (Choose three.)

### Options:

---

**A-** HTTP Proxy

**B-** CDN

**C-** CGNAT

**D-** Multicast

**E-** NTP server

### Answer:

---

C, D, E

## Question 9

---

**Question Type:** MultipleChoice

---

Which statement about a Versa spoke-to-hub-only topology is true?

### Options:

---

- A- Spoke devices can send traffic to other spokes through the hub.
- B- Spoke devices can send traffic to other spokes directly.
- C- Spoke devices can send traffic to other spokes through the controller.
- D- Spoke devices can send traffic only to networks behind the hub.

### Answer:

---

D

## Question 10

---

**Question Type:** MultipleChoice

---

Which statement about URL-based ZTP is true?

**Options:**

---

- A- URL-based ZTP is triggered using a console connection.
- B- URL-based ZTP is supported only for Versa Gateway configurations.
- C- URL-based ZTP supports only DHCP-based WAN links.
- D- URL-based ZTP uses a link that can be sent over e-mail.

**Answer:**

---

D
