Question 1

Question Type: MultipleChoice

Which statement about the function of an SD-WAN Forwarding Profile is true?

Options:

- A- It defines the criteria for custom applications and services.
- B- It defines the criteria for matching traffic.
- C- It defines the link-performance parameters.
- D- It defines which of the WAN links should be selected to forward the outgoing traffic.

Answer:

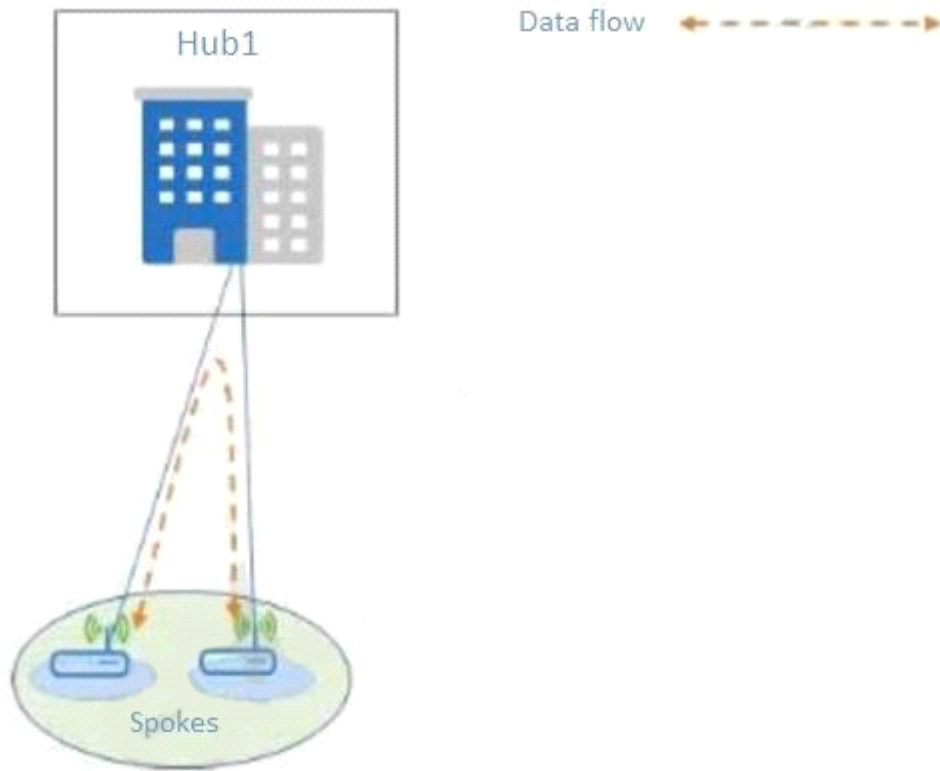

D

Question 2

Question Type: MultipleChoice

Review the exhibit.

Which hub topology is shown in the exhibit?

Options:

- A- spoke-to-spoke only
- B- spoke-to-spoke via hub
- C- spoke-to-spoke direct
- D- spoke-hub-hub-spoke

Answer:

B

Question 3

Question Type: MultipleChoice

Which two statements about Versa Analytics are true? (Choose two.)

Options:

- A- Versa Analytics provides the ability to configure logging parameters on SD-WAN CPEs.
- B- Versa Analytics provides REST APIs for northbound integration with third-party tools.
- C- Versa Analytics provides centralized logging information about the SD-WAN environment.

D- Versa Analytics provides real-time traffic monitoring dashboards.

Answer:

B, D

Question 4

Question Type: MultipleChoice

Which statement describes a Versa Workflow?

Options:

- A-** A Versa Workflow is another name for a template in Versa Director.
- B-** A Versa Workflow can be used to configure routing policies on third-party devices.
- C-** A Versa Workflow is a process that creates or modifies an object in Versa Director.
- D-** A Versa Workflow is the process used to order services from Versa Networks.

Answer:

D

Question 5

Question Type: MultipleChoice

Which two statements about a Versa Secure SD-WAN deployment are true? (Choose two.)

Options:

- A- By default, all data traffic is forwarded on IPSec tunnels.
- B- By default, all control traffic is forwarded on IPSec tunnels.
- C- By default, all data traffic is forwarded on unencrypted tunnels.
- D- By default, all control traffic is forwarded on unencrypted tunnels.

Answer:

B, C

Question 6

Question Type: MultipleChoice

Review the exhibit.

Edit Template - T_LAB_Template_Branch2

Basic Interfaces Routing Tunnels Inbound NAT Services Management Servers

Device Port Configuration

Number of Ports: 10

0 Mgmt 1 WAN 2 WAN 3 LAN 4 LAN 5 LAN 6 7 8 9

4G LTE WIFI

WAN Interfaces ?

Port #	Interface	VLAN ID	Network Name	Priority	IPv4	
					Static	DHCP
0	vni-0/0	⚙	MPLS	⚙	<input checked="" type="checkbox"/>	<input type="checkbox"/>
1	vni-0/1	⚙	INTERNET	⚙	<input checked="" type="checkbox"/>	<input type="checkbox"/>

LAN Interfaces ?

Port #	Interface	VLAN ID	Network Name	Organization	Zones
2	vni-0/2	⚙	Customer1-LAN	Customer1	--Select--
3	vni-0/3	⚙	Customer2-LAN	Customer2	--Select--
4	vni-0/4	⚙	Customer3-LAN	Cutsomer3	--Select--

Referring to the gear icon shown in the exhibit, when would you select the gear icon for a VLAN in a template workflow?

Options:

- A- when all the devices sharing this workflow template have the default VLAN on the vni-0/1 interface
- B- when all the devices sharing this workflow template have the same VLAN on the vni-0/1 interface
- C- when all the devices sharing this workflow template have different VLANs on the vni-0/1 interface
- D- when all the devices sharing this workflow template have more than one VLAN on the vni-0/1 interface

Answer:

C

Question 7

Question Type: MultipleChoice

Which two statements about the Versa Secure SD-WAN solution are true? (Choose two.)

Options:

- A- Versa Director is used for end-user data traffic transport.
- B- Versa Controller provides historical usage reports.
- C- Versa CPEs are activated using Zero Touch Provisioning.
- D- All components support high availability.

Answer:

C, D

Question 8

Question Type: MultipleChoice

Your organization requires any new CPE deployment to have Versa Operating System version 20.2.2.

In this scenario, how would you accomplish this task?

Options:

- A- Select preferred software version to 20.2.2 in the Common Template.

- B-** Select preferred software version to 20.2.2 in the Template Workflow.
- C-** Select preferred software version to 20.2.2 in the Device Bind Data.
- D-** Select preferred software version to 20.2.2 in the Device Group.

Answer:

B

Question 9

Question Type: MultipleChoice

When onboarding a CPE using ZTP, the device shows up in the unknown device list in the Versa Director Inventory.

In this scenario, what caused this problem?

Options:

- A-** The template workflow configuration does not have the correct serial number of the CPE defined.
- B-** A non-Versa-branded appliance is used as the CPE.

- C-** The device workflow configuration does not have the correct serial number of the CPE defined.
- D-** The CPE is installed as a virtual machine.

Answer:

A

Question 10

Question Type: MultipleChoice

What are two features of the Versa Secure SD-WAN? (Choose two.)

Options:

- A-** open programming language complier
- B-** multitenancy and Role Based Access Control (RBAC)
- C-** on demand resource pooling
- D-** single-pane-of-glass management with embedded analytics

Answer:

B, D

Question 11

Question Type: MultipleChoice

Which two statements about a Versa Secure SD-WAN deployment are true? (Choose two.)

Options:

- A-** By default, all data traffic is forwarded on IPsec tunnels.
- B-** By default, all control traffic is forwarded on IPsec tunnels.
- C-** By default, all data traffic is forwarded on unencrypted tunnels.
- D-** By default, all control traffic is forwarded on unencrypted tunnels.

Answer:

B, C

Question 12

Question Type: MultipleChoice

Which statement about the function of an SD-WAN Forwarding Profile is true?

Options:

- A- It defines the criteria for custom applications and services.
- B- It defines the criteria for matching traffic.
- C- It defines the link-performance parameters.
- D- It defines which of the WAN links should be selected to forward the outgoing traffic.

Answer:

D
