Question 1

Question Type: MultipleChoice

Which action should an administrator perform in the vSphere Client to create a VM template that can be used by more than one vCenter Server instance?

Options:

- A- Right-click the VM > Clone > Clone to Template
- B- Right-click the VM > Template > Convert to Template
- C- Right-click the VM > Clone > Clone as Template to Library
- D- Right-click the VM template > Convert to Virtual Machine

Answer:

C

Question 2

Question Type: MultipleChoice

An administrator needs to separate traffic of virtual machine live migrations from all other traffic. Which TCP/IP stack meets this requirement?

Options:

- A- Fault Tolerance logging TCP/IP stack
- B- Provisioning TCP/IP stack
- C- vMotion TCP/IP stack
- D- Management TCP/IP stack

Answer:

C

Question 3

Question Type: MultipleChoice

An administrator would like to add a new server into an existing vSphere cluster. The servers are running Intel processors. The administrator needs to ensure that the new server can be added to the cluster with the same processor baseline as the existing servers.

Which strategy should be used to achieve this goal?

Options:

- A- Fault Tolerance
- B- Enhanced vMotion Compatibility
- C- vSphere vMotion
- D- vSphere High Availability

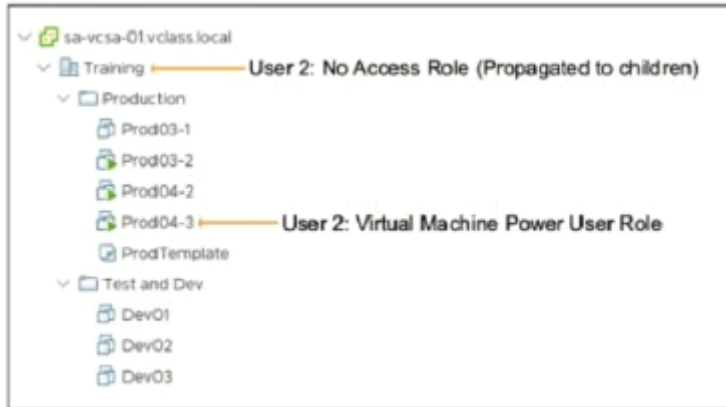

Answer:

B

Question 4

Question Type: MultipleChoice

Refer to the exhibit:

Which statement is true about the access privileges of User 2?

Options:

- A-** User 2 has virtual machine power user privileges to Prod04-3.
- B-** User 2 has no access to all objects in the Production folder and Test and Dev folder.
- C-** User 2 has virtual machine power user privileges to all VMs in the Production folder.
- D-** User 2 has access to all objects in the Production folder and no access to Dev01, Dev02, and Dev03.

Answer:

A

Question 5

Question Type: MultipleChoice

An administrator is concerned that a VM has high ballooning activity and needs to check the default display of the Advanced Performance pane in the vSphere Client to confirm this activity.

Which view should the administrator choose in the default display?

Options:

A- Network

B- Power

C- Memory

D- Virtual disk

Answer:

C

Question 6

Question Type: MultipleChoice

Which hardware is required to support Fibre Channel storage?

Options:

- A- iSCSI adapter
- B- HBA
- C- CNA
- D- NIC

Answer:

B

Question 7

Question Type: MultipleChoice

Which two storage protocols can a virtual infrastructure operator use to create a VMFS datastore? (Choose two.)

Options:

A- Fibre Channel

B- NFS

C- iSCSI

D- CIFS

E- SMB

Answer:

A, C

Question 8

Question Type: MultipleChoice

During a virtual machine migration, which VMkernel networking layer handles the traffic?

Options:

- A- Fault Tolerance
- B- IP storage
- C- vSAN
- D- vSphere vMotion

Answer:

D

Question 9

Question Type: MultipleChoice

Which two vSphere features help address an organization's business availability challenges? (Choose two.)

Options:

- A- vSphere Fault Tolerance
- B- vSphere Pod Service
- C- vSphere DPM

- D- vSphere Trust Authority
- E- vSphere High Availability

Answer:

A, E

Question 10

Question Type: MultipleChoice

An administrator has observed an alert message in the vSphere UI related to a host's storage sensor hardware. Where should the administrator look for more information related to this alert?

Options:

- A- Menu > Lifecycle Manager > Baselines
- B- Host > Monitor > Skyline Health
- C- Host > Monitor > Hardware Health > Storage Sensors
- D- Host > Monitor > Hardware Health > System Event Log

Answer:

D

Question 11

Question Type: MultipleChoice

Which file system protocol is supported by vSphere?

Options:

A- NFS

B- iSCSI

C- SAN

D- vSAN

Answer:

A

Question 12

Question Type: MultipleChoice

Which two improvements to the management of a VM are gained when VMware Tools are used? (Choose two.)

Options:

- A- Performs a clone of the VM
- B- Adds VM alarms to the inventory
- C- Makes a graceful shutdown of the VM possible
- D- Allows a snapshot before the guest OS is upgraded
- E- Synchronizes time between the guest and the host

Answer:

C, E
