Question 1

An organization that extensively uses vRealize Orchestrator workflows for vRealize Automation integrations has the following challenges:

Each VM provisioning request executes 50 workflows for integration with various third-party tools.

Many developers from different teams, unaware of each other's work, create and maintain the workflows.

Whenever vRealize Automation VM deployments fail, a lot of time and resources are spent debugging failures.

Which cloud management product will help speed up the organization's troubleshooting effects?

Options:

A- vRealize Operations Manager

B- vRealize Suite Lifecycle Manager

C- vRealize Log Insight

D- vRealize Network Insight

Answer:

C

Question 2

What level of design will contain an automation platform, an operational monitoring platform, and a desktop platform?

Options:

A- Physical Design

B- Conceptual Design

C- Detailed Design

D- Logical Design

Answer:

D

Question 3

When designing a load-balanced vRealize Operations cluster, which three aspects should an architect consider? (Choose three.)

Options:

A- Maximizing node participation in the handling of UI sessions and traffic

B- Providing high availability if any admin or data node fails

C- Reducing the number of certificates that must be managed for the nodes

D- Minimizing node latency in the handling of UI sessions and traffic

E- Simplifying the configuration of End Point Operations (EPOps) agents

F- Providing fault tolerance if any admin or data node fails

Answer:

B, D, E

Question 4

Question Type: **MultipleChoice**

Which recommendation should an architect make when designing a highly available vRealize Operation (vROps) cluster?

Options:

A- Deploy analytics nodes with the same disk size on storage of the same type.

B- Depending on the size and performance requirements for analytics nodes, apply Storage DRS Affinity rules to ensure that nodes are on same datastores.

C- If the sizing guideline provides several configurations for the same number of objects, use the configuration which has the greatest number of nodes.

D- Set Storage DRS to Fully Automated for all vRealize Operations Manager analytics nodes.

Answer:

A

Question 5

Question Type: **MultipleChoice**

A customer wants to design and deploy Workspace ONE Access to provide multi-tenancy for vRA 8.x deployment.

Which two designs decisions would achieve the customer's requirement? (Choose two.)

Note: SAN stands for Subject Alternative Name.

Options:

A- Configure a certificate with multiple SAN entries for Workspace ONE Access.

B- Configure SSL termination on the load balancer for Workspace ONE Access.

C- Configure SSL bridging on the load balancer for Workspace ONE Access.

D- Configure SSL passthrough on the load balancer for Workspace ONE Access.

E- Configure a certificate with a single SAN entry for Workspace ONE Access.

Answer:

B, E

Question 6

Question Type: **MultipleChoice**

An organization wants to implement a network topology to provide users with a one-way upstream access to the external network.

Which two statements are true for implementing such a network profile type using NSX-T Data Center? (Choose two.)

Options:

A- The external network specified in the "Network Policies" tab will be used to assign an external IP to the VM

B- A DNAT rule is created o the Tier-1 router to allow the VM to communicate externally

C- The cloud template must use the "private" network profile type

D- The external network should be left blank in the "Network Policies" tab

E- An SNAT rule is created on the Tier-1 router to allow the VM to communicate externally

Answer:

A, E

Question 7

Question Type: **MultipleChoice**

Consider the following requirements to be used in determining a vRealize Operations licensing model:

Authentication provided by Single Sign On

Performance monitoring and analytics for 12 Hosts and 1 vCenter

vSphere security and compliance monitoring for PCI and HIPAA

Guided remediation for discovered issues

Customizable dashboards, reports and views

Using the requirements, what is the minimum license that can be used for this deployment of vRealize Operations?

Options:

A- vRealize Cloud Universal Enterprise

B- Advanced

C- Standard

D- Enterprise

Answer:

B
