- C- Extensible Authentication service and Kerberos Auth service
- D- User Auth service and Multi-Factor Authentication service

Answer:

D

Question 3

Question Type: MultipleChoice

A company wants to restrict a VMware Workspace ONE legacy application from accessing company resources

What is the proper way to achieve that without compromising use of the Workspace ONE Intelligent Hub app?

Options:

- A-** Set the VMware Workspace ONE Access policy by adding "All Device Types / Web Browser" as the Device Type first on the list with 'Password (Cloud Deployment)' as authentication method + add a 'Custom Error Message' that tells users to download the VMware Workspace ONE Intelligent Hub app and try again.
- B-** Set the VMware Workspace ONE Access policy by adding "All Device Types" as the Device Type with "Certificate (Cloud Deployment)" and fallback with "Password (Cloud Deployment)" as authentication method + add a "Custom Error Message" that tells users to download the VMware Workspace ONE Intelligent Hub app and try again.
- C-** Set the VMware Workspace ONE Access policy by adding each device type "iOS, iPad, MacOS, Android, Windows 10, Web Browser" as the device type, in that order, with "Password (Cloud Deployment)" authentication method + add a "Custom Error Message" that tells users to download the VMware Workspace ONE Intelligent Hub app and try again.
- D-** Set the VMware Workspace ONE Access policy by adding "Device Enrollment / Windows 10 Enrollment" as the Device Type first on the list with "Password (Cloud Deployment)" as authentication method + add a "Custom Error Message" that tells users to download the VMware Workspace ONE Intelligent Hub app and try again.

Answer:

A

Question 4

Question Type: MultipleChoice

- E- Workspace ONE Intelligence

Answer:

D, E

Question 6

Question Type: MultipleChoice

A company wants to restrict a VMware Workspace ONE legacy application from accessing company resources

What is the proper way to achieve that without compromising use of the Workspace ONE Intelligent Hub app?

Options:

- A-** Set the VMware Workspace ONE Access policy by adding "All Device Types / Web Browser" as the Device Type first on the list with 'Password (Cloud Deployment)' as authentication method + add a 'Custom Error Message' that tells users to download the VMware Workspace ONE Intelligent Hub app and try again.
- B-** Set the VMware Workspace ONE Access policy by adding "All Device Types" as the Device Type with "Certificate (Cloud Deployment)" and fallback with "Password (Cloud Deployment)" as authentication method + add a "Custom Error Message" that tells users to download the VMware Workspace ONE Intelligent Hub app and try again.
- C-** Set the VMware Workspace ONE Access policy by adding each device type "iOS, iPad, MacOS, Android, Windows 10, Web Browser" as the device type, in that order, with "Password (Cloud Deployment)" authentication method + add a "Custom Error Message" that tells users to download the VMware Workspace ONE Intelligent Hub app and try again.
- D-** Set the VMware Workspace ONE Access policy by adding "Device Enrollment / Windows 10 Enrollment" as the Device Type first on the list with "Password (Cloud Deployment)" as authentication method + add a "Custom Error Message" that tells users to download the VMware Workspace ONE Intelligent Hub app and try again.

Answer:

A

Question 7

Question Type: MultipleChoice

Which two solutions need to be integrated for an administrator to have conditional access with User Risk Score? (Choose two.)

Options:

- A- Workspace ONE Hub Services
- B- Workspace ONE SASE
- C- Workspace ONE Assist
- D- Workspace ONE Access
- E- Workspace ONE Intelligence

Answer:

D, E

Question 8

Question Type: MultipleChoice

Which step is required to configure the AirWatch Provisioning App?

Options:

- A- Configure an identify provider as the SAML Provider
- B- Configure LDAP - Other LDAP at the Container OG level m Workspace ONE UEM
- C- Set up LDAP - Active Directory at the Customer OG level m Workspace ONE UEM
- D- Provision Users at the Container OG level n Workspace ONE UEM

Answer:

C
