Question 1

Question Type: MultipleChoice

Press the Exhibit button to view "XML Schema Document". Select which of the following correctly describes the "Last_Date_Updated" attribute.

Options:

A- The 'Last_Date_Updated' attribute is an attribute written inside the 'Address_book' element.
B- The 'Last_Date_Updated' attribute is an attribute written inside the 'Company_Name' element.
C- The 'Last_Date_Updated' attribute is an attribute written inside one of the following elements: 'Company_Name', 'Postal Code', 'Address', 'Telephone_Number', or 'FAX'.
D- The 'Last_Date_Updated' attribute is an attribute written inside the 'Company' element. W Courier Newlr Z

Answer:

D

Question 2

Question Type: MultipleChoice

Select which of the following statements is correct.

Options:

A- Under XML 1. 0 recommendations, there are no clear rules as to whether to use a child element or an attribute when attaching information to an element.
B- An XML document must never be structured without any element content, and with only empty elements and attributes.
C- Use attributes when including specific, clear numerical value information in an XML document.
D- Attribute values cannot include line feeds or white spaces. W Courier Newlr Z

Answer:

A

Question 3

Question Type: MultipleChoice

Choose which of the following correctly describes the DTD attribute list declaration when the "date" attribute and the "reception" attribute are included in the "Customer_Visit" element.

Options:

A- In HTML element names are predefined, while in XML element names can be defined depending on their purposes of use.
B- Place the symbol in a text string within an attribute value.
C- HTML element names are not case sensitive, while XML element names are case sensitive. W Courier Newlr Z
D- <!ATTLIST Customer_Visit date CDATA #IMPLIED reception CDATA #IMPLIED>W Courier Newlr Z

Answer:

D

Question 4

Question Type: MultipleChoice

Select the answer that correctly describes a namespace to which the eMail element in the XML document below belongs.

Taro_Yamada

Yamada@abc. co. jp

03-xxxx-xxx1

Options:

A- urn:sample1
B- urn:sample2
C- both urn:sample1 and urn:sample2
D- There is no namespace to which the eMail element belongs. W Courier Newlr Z

Answer:

B

Question 5

Question Type: MultipleChoice

Press the Exhibit button to view "XML Schema Document". Select which of the following correctly describes a valid XML document with respect to "XML Schema Document".

Options:

A- <ContactInformation Date='2004-07-31'>
<Name>Taro Yamada</Name>
<eMail>Yamada@ABC .co .jp</eMail>
</ContactInformation>
B- This is not a valid XML document, because the A2 attribute does not reference the ID type value.
C- This is not a well-formed document, because the attribute value cannot have a line feed in it.
B. This is not a valid XML document, because an attribute cannot be designated for an element that is designated as EMPTY.
D- <ContactInformation/>W Courier Newlr Z

Answer:

A, B

Question 6

Question Type: MultipleChoice

Select Which option best is correct with respect to XSLT.

Options:

A- XSL-FO must be used when using an XSLT stylesheet to display an XML document.
B- Only a single XSLT stylesheet may be applied to a single XML document.
C- An XSLT stylesheet can be used to acquire the values of specific elements within an XML document.
D- The XSLT Version 1. 0 recommendation defines special instructions to create a

corresponding DTD from the original XML document. W Courier Newlr Z

Answer:

C

Question 7

Question Type: MultipleChoice

When using an XML processor to read the XML document below, which answer correctly describes the value that entity reference "&name;" replaces? Assume that the XML processor can read "external. txt".

[external. txt]

<?xml version="1. 0" encoding="UTF-8"?>

gloria

[XML Documents]

<?xml version="1. 0" encoding="UTF-8"?>

]>

My name is &name;

Options:

A- Because the character encoding method of the external entity [ex. txt] is different than the 'XML Document', the external entity cannot be imported.
B- The entity reference is not incorrect; however, this is not a well-formed XML document. W Courier Newlr Z
C- <name>gloria</name>
D- An error is thrown and nothing is replacedW Courier Newlr Z

Answer:

C

Question 8

Question Type: MultipleChoice

Choose Which option best XML Schema and its respective description is incorrect. Assume the Schema namespace prefix is "xs".

Options:

A- In the following example, the data element appears repetitively (more than once).
<xs:element name='data' type='xs:string' maxOccurs='unbounded'/>
B- In the following example, the data element appears either 0 times or 1 time. <xs:element name='data' type='xs:string' minOccurs='0'/>
C- In the following example, the data element appears repetitively at least twice.
<xs:element name='data' type='xs:string' minOccurs='2' maxOccurs='unbounded'/>
D- In the following example, the data element appears repetitively between two and five times.
<xs:element name='data' type='xs:string' minOccurs='2' maxOccurs='5'/>W Courier Newlr Z

Answer:

D

Question 9

Question Type: MultipleChoice

Press the Exhibit button to view the XML document "a. xml", and apply XSLT style sheet "b. xsl" to "a. xml". Select which of the following correctly describes the transformation results. Assume that the input XML document and transformation results ignore meaningless whitespace.

Options:

A- <detail>
<connection>Local_Area_Connection</connection>
<service state='Currently_Processing'>SMTP</service>
Administrator
</detail>
B- This is not a well-formed document, because the attribute value cannot have a line feed in it.
B. This is not a valid XML document, because an attribute cannot be designated for an element that is designated as EMPTY.
C- For characters that cannot be input directly, designating the character code number allows for input. W Courier Newlr Z
D- <service state='Currently_Processing'>SMTP</service>W Courier Newlr Z

Answer:

C

Question 10

Question Type: MultipleChoice

Choose Which option best is not a well-formed XML document.

Options:

A- This is not a well-formed document, because the attribute value cannot have a line feed in it.
B. This is not a valid XML document, because an attribute cannot be designated for an element that is designated as EMPTY.
B- <?xml version='1. 0'?>
<root>4+1</root>
C- <?xml version='1. 0'?>
<root>4>1</root>
D- <?xml version='1. 0'?>
<root>4<1</root>W Courier Newlr Z

Answer:

D

Question 11

Question Type: MultipleChoice

Select the answer that correctly describes a namespace to which the type attribute of the Name element in the XML document below belongs.

Taro_Yamada Yamada@abc. co. jp

03-xxxx-xxx1

Options:

A- urn:sample1
B- urn:sample2
C- master
D- There is no namespace to which the type attribute belongs. W Courier Newlr Z

Answer:

B
